

**LICAP SUBCOMMITTEE ON MANAGEMENT
OPPORTUNITIES**

Agenda

July 6, 2017

10 AM TO 11:30 AM

SCWA EDUCATION CENTER, HAUPPAUGE NY

To Members of the MO Committee:

We thank the Chair for encouraging the MO Committee to continue its work and advise the LICAP on management opportunities. We recognize that as a standing committee we will continue at the chair's discretion to explore gaps in water system coverage and opportunities to manage those gaps and other unmet needs.

As per a number of suggestions sent by members of LICAP in response to our last LICAP meeting, at our next MO meeting we will discuss and explore the following issues surrounding water on Long Island and investigate the management in place to respond to these issues.

1. Nitrogen (nitrates and nitrites)

A. Septic Systems and Cesspools

- 1. 510,000 home septic systems**
- 2. Development septic systems**
- 3. Government building's septic systems**

B. Fertilizer

- 1. Home use**
- 2. Development use**
- 3. Golf Course use**
- 4. Agricultural use**

C. Atmospheric deposition

D. Sewage Treatment Plants and runoff

2. VOCs

A. Tetrachloroethene (PCE)

B. Trichloroethene (TCE)

- C. 1,1,1-Trichloroethene (TCA)**
- D. Perchlorate**
- E. Methyl Tertiary Butyl Ether (MTBE)**
- F. Pharmaceuticals**
- G. Personal care Products (PCPs)**

3. Pesticides

4. Saltwater Intrusion

5. New Contaminants

6. Contaminated Site Cleanup

7. Illegal dumping

8. Super fund site discovery

**Happy 4th and see you on the 6th,
Jared and Sarah**
